

"JANUS Alignment" through Britain

JANUS is a suggested name for the full length Projection of the "Stonehenge, Old Sarum, Salisbury Cathedral 'Ley' Line" (ref: "New View over Atlantis"– John Michell, etc).

Google Earth mapping, suggests a projected alignment north of Stonehenge through (or very close to) notable places, such as:
Avebury*, Shap**, Edinburgh, Braemar, Ben Avon, Findhorn***

Balanced male ("Janus") & female ("Luna"****) earth energy 'currents' flowing around the alignment axis are assumed (but not as yet dowsed).

* Crosses the "Michael/Mary" earth energy flows near Avebury (ref: "Sun and the Serpent" - Hamish Miller & Paul Broadhurst)

** Close to the "Belinus Alignment" through N Lancs & S Cumbria (ref: "The Spine of Albion" - Gary Biltcliffe & Caroline Hoare).

"Janus/Luna" appear to intermingle with the "Belinus/Elen" earth energy flows between Kirkby Lonsdale and Penrith, including Shap – some common 'sites' & 'nodes' perhaps?

Janus Alignment axis is approx 7 degs W of OS Maps N (cf. Belinus 14.5 degs W), crossing Belinus perhaps at *Colgate Scar* on the *Hindburn River*?

*** I was drawn to the Findhorn Foundation (Spiritual Community & Eco-village) in 2005 and moved there in 2010.

I had been considering the 'Janus Alignment' for more than 15 years, and only realised it aligned directly through Findhorn in August 2014 on using Google Earth mapping (rather than 2-dimensional atlas maps)! It exactly fits 1 of 3 known (1998 Geomantic study) very broad energy 'flows/fields' (300m wide?!) that meet/cross at a central Power Point (Universal Hall) within the Findhorn Ecovillage, 'covering' most of its land.

A further local 'Ley' links Findhorn's Universal Hall with Elgin Cathedral (& beyond?) Findhorn is considered (Marko Pogacnik) part of a major 'Landscape Temple' interconnecting Pluscarden Abbey, Cluny Hills (cosmic Powerpoints near Forres– also owned by Findhorn Foundation Community) , Findhorn River/Bay.

The Findhorn Community's 52 year history suggests its natural/spiritual growth to 'A city of light', with major energy connections with Glastonbury and Iona (Eileen Caddy's 'Guidances', et al) and globally & universally

**** Appropriate 'female current' names are: [Luna](#), Jana, Diana, Anna ? And one of these should be chosen to partner the male flow of 'Janus' once identified.
